

devazion Company Profile

WHO WE ARE

Devazion is a Tunisian company engineering scalable solution and AI driven business software. We architect unique, high performance systems and provide expert technical consulting and integration. Our focus is bridging complex enterprise needs with innovative, future proof code.

BACKGROUND

Born from years of architecting mission-critical government systems, the foundational development of our unique, scalable architecture began in **2018**. After nearly a decade of technical R&D and strategic consulting, **2026** marks our official commercial release.

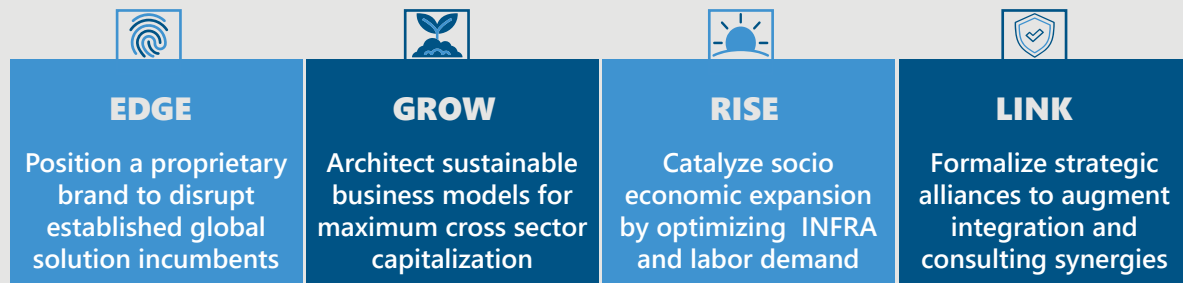

THE MISSION

Devazion is dedicated to empowering enterprises through AI driven solutions and scalable software architectures. Since the release, Our focus has been the meticulous engineering of unique, robust frameworks that solve complex business challenges. We strive to lead the African tech ecosystem by providing expert integration and consulting that ensures long term digital resilience.

ETHOS

At **Devazion**, we define excellence through a culture of integrity and mutual respect, ensuring every commitment is met with mission-critical reliability and technical accountability. Our execution strategy leverages high tier architectural expertise and the strategic deployment of specialized professionals to solve complex enterprise challenges with precision. We prioritize long term stability through robust service back-up and a steadfast commitment to maintaining the highest standards of professional ethics. By investing in continuous product training and skill upgrading, we ensure our team remains at the vanguard of AI driven ERP innovation. This synthesis of technical mastery and professional ethics forms the backbone of our trusted, high-impact partnership model.

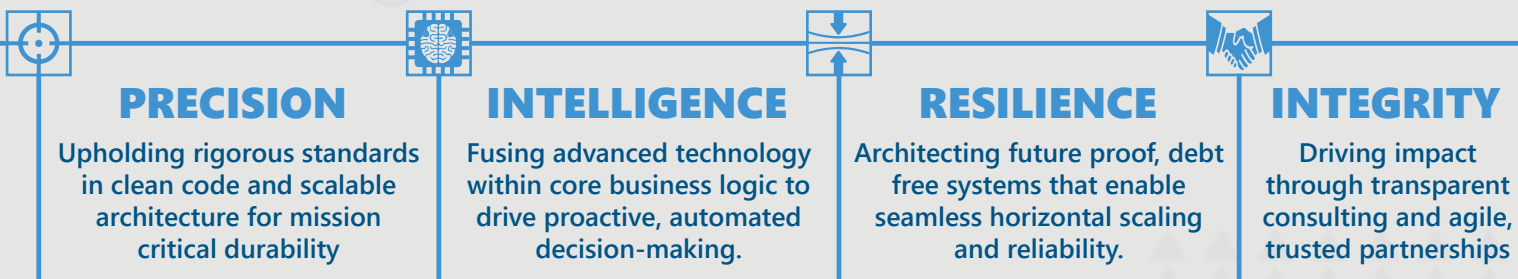

OUR STRATEGY

VISION

To become the definitive architect of next-generation business intelligence by pioneering autonomous, scalable AI and business solution ecosystems. We envision a future where complex enterprise operations are seamlessly optimized through our proprietary frameworks, setting the global standard for technical excellence and digital transformation.

OUR VALUES

PRODUCTS & SERVICES

DEDRIX

Smart Enterprise Solutions : Devazion delivers Dedrix ERP, Tunisia's most advanced AI-integrated management suite featuring 70+ modules and an innovative, cost saving with our unique in the world serverless architecture.

DEDRIX AI

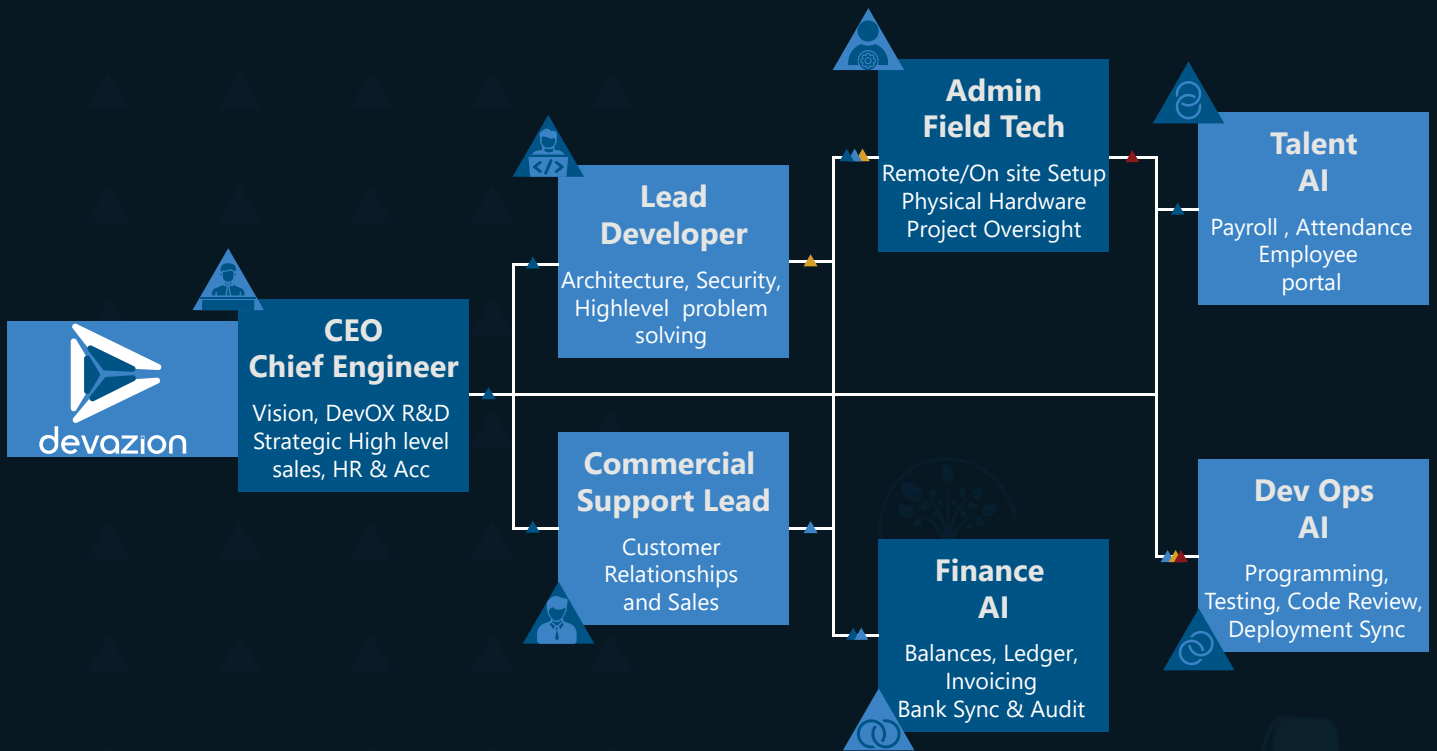

Localized AI Automation : Dedrix AI empowers North African businesses with a drag and drop workflow builder and intelligent chatbots that sync seamlessly with your local ERP data.

devOX

Expert R&D & Support : Through our DevOX division and 24/7 engineering team, we provide high level consulting and scalable digital transformation tailored to your specific infrastructure.

STRUCTURE (Human AI Pair 4 x 3)

IN NUMBERS / SCOPE

Devazion leads the Tunisian market as the only provider of a **serverless mesh architecture** with native agentic AI, delivering a "**one shot**" ecosystem of 105+ integrated ERP and automation tools. Through our DevOX R&D division, we offer custom engineering and innovative solutions that eliminate dedicated server costs, providing elite enterprise power with **zero infrastructure** overhead.

1
