

Engineering the Future of Your Business

Innovation.
Research & Development.
Strategic Consulting Division.

Overview

DevOX is the dedicated R&D, engineering, and innovation powerhouse of Devazion. More than just a service, DevOX acts as your strategic partner in navigating the complex landscape of digital transformation. Whether you require bespoke hardware integration, custom software modules, or high-level engineering consulting, DevOX is designed to bridge the gap between "standard software" and "extraordinary business needs."

Our mission is to build unique, scalable, and innovative solutions that don't yet exist on the market, ensuring your business stays ahead of the competition in Tunisia and North Africa.

Core Service Pillars

1. Product-as-a-Service (PaaS) & Hardware Engineering

DevOX isn't limited to code. We provide the physical and structural backbone for your digital operations:

- Hardware Selection & Deployment: Expert guidance on choosing the right servers, IoT devices, and INFRA to run Dedrix ERP or AI on-premise.
- Custom Hardware Integration: Designing workflows where software meets the physical world.

2. Specialized Software Development (Bespoke Modules)

When your business logic requires something unique, DevOX delivers:

- Specific Development: Tailor-made software components that integrate seamlessly with the Dedrix ecosystem.
- API & Third-Party Integration: Connecting your existing tools with Dedrix ERP and AI to create a unified data environment.
- Horizontal Scalability Engineering: Designing systems that grow effortlessly as your user base and data volume increase.

3. Strategic Consulting & Digital Transformation

Leverage our 9+ years of leadership experience to audit and optimize your business:

- Workflow Optimization: Analyzing current bottlenecks and designing automated paths using Dedrix AI.
- Technology Roadmap: Long-term planning for IT infrastructure and digital adoption.
- Engineering Consultations: High-level technical advice on serverless architectures and data synchronization strategies.

Why Choose DevOX ?

In a world of "one-size-fits-all" software, DevOX offers the scalpel. We provide the precision engineering required for complex industries like manufacturing, logistics, and high-volume retail. By choosing DevOX, you aren't just buying a product, you are investing in a dedicated R&D team that treats your business challenges as their own innovation project.
